

Cellpose 3 (cyto3): total segmentation time for 2D images

Reference: Cellpose 3.1.1.3 (e6eec15) ; FP32 network ; channels [0, 0]

Bars/large markers: medians. Latency whiskers: repeat min-max. Speedup whiskers/dots: paired repeat range/samples.

Time differences compare medians. 5 synchronized repeats; batch size 8; RTX PRO 6000 Blackwell.

Public Cellpose test fixtures ; All candidate mask bytes match the reference ; Model loading and image decoding excluded
